
*We like to dream of
an eco-friendly world.*

FOR YOU, THE BEST NATURAL PRODUCTS

Greenproject Italia is a company founded in 2011, the brainchild of Michele and Silvia, somethings who graduated in IT with a life-long passion for natural products.

Wanting to make a move towards green in their own and their children's lives, these two young adults brought together their passion and experience to give life to a new business venture: a start-up focused on the sale of organic products, characterised by an avant-garde and competitive organisation.

Despite the economic crisis, and undeterred by many friends and university companions who went abroad in search of work, Michele and Silvia chose to stay, put their abilities to the test and focused on the value of Made in Italy in the field of organic cosmetics and detergents.

The choice of enhancing our products with raw materials of plant origin allows us to offer you a wide range of products that is compatible with the vegan world.

www.greenprojectitalia.it

A passion becomes a dream, a dream becomes a reality.

Greenproject Italia is a company founded in 2011 based on an idea: to design, select, develop and distribute natural, organic and eco-compatible products which are useful and have a common denominator of sustainable consumption, energy and cost savings, plus a reduction in waste and CO2 emissions.

Our Mission is Green.

"Combining the needs of daily life with respect for the environment and people for a sustainable future."

Greenatural, giving strength to our values.

Raw materials: from renewable sources and organic farming.

Production: nickel tested. On-going research and development to improve the formulas.

Packaging: minimal use of plastic in favour of bulk products to re-use packaging.

Accessibility: low impact products for daily use, accessible to everyone.

Effects of use: effective products, valid alternatives for anyone suffering from allergies or intolerances caused by aggressive cleaning agents.

Disposal: highly biodegradable formulas, guaranteed by certifications.

greenatural

Our brand values

We choose the raw materials responsibly.

We want to pass down to future generations what we have learned from those in the past: that's why our first choice will always be raw materials derived from renewable, sustainable and environmentally-friendly sources.

Small steps, small gestures, every day for a better world.

Using our highly biodegradable house cleaning and beauty care products on a daily basis, you will leave an ever-lighter footprint in the environment around you: it's always the little things that make the big difference.

Transparent formulations dedicated to the whole family.

The choice of using natural ingredients means that our products are versatile and can be used by the whole family.

The guarantee of certified and certifiable environmentally friendly products.

Our dedication in proving the transparency of the production processes and the ingredients used allows us to formulate products that fall within the highest European standards, guaranteeing you constant research and evolution towards ever greener solutions.

greenatural

GREENATURAL HOME RANGE

The products to care for your home and clothes are made with natural organic ingredients which guarantee high biodegradability of the formulas, as well as natural efficiency and effectiveness.

We take great care over choosing ingredients, and over the production and choice of packaging, to ensure an eco-friendly production cycle.

Greenatural: combining the requirements of daily life with respect for the environment and people for a sustainable future!

Home range

- Just as effective as traditional detergents
- 100% plant-based
- A complete range for all the family's needs.

Greenatural home products are made with **natural organic ingredients**. They are efficient, concentrated, dermocompatible and biodegradable, **cruelty free**, parabens free, with no optic brighteners, as well

as being SLES and SLS free and checked for nickel, chrome and cobalt content. A complete range of natural products, the ideal solution for keeping your home spotlessly clean and hygienic.

The fragrance is obtained by using organic essential oils or certified essences.

Home range

- Highly biodegradable
- Descales and eliminates unpleasant odours
- Whitening action

CITRIC ACID is a natural, versatile product which is ideal for preparing a variety of house cleaning products: fabric softener, limescale remover, descaler and dishwasher rinse aid.

Pure **SODIUM PERCARBONATE** on contact with hot water produces active oxygen with a cleansing, whitening and sanitising action on both white and coloured fabrics.

When used in the dishwasher, it sanitises and helps eliminate unpleasant odours.

Spray for glasses and smartphones

We hold them in our hands all day, even when we are in the bathroom and during mealtimes or when we wear them. But do we ever clean them? **Glasses, smartphones and tablets are some of the dirtiest**

objects that we come in contact with every day. Greenatural has developed two products specifically for cleaning and delicately removing smudges and fingerprints. A daily gesture to keep hygiene

and cleanliness on hand! A no-gas spray based on natural surfactants derived from coconut oil and maize, plus the guarantee of AIAB (Italian Association for Organic Agriculture) cleanliness certification!

Scented sachets

- With ground corn cob
- Long-lasting
- Natural protection

Greenatural scented bags are the result of a careful search for natural plant-based ingredients.

Thanks to the properties of a natural product like **GROUND CORN COB**, our

exclusive and sophisticated essences are slowly released, naturally perfuming and protecting your clothes and linen.

They leave your wardrobe smelling clean and fresh.

Ideal for perfuming drawers, wardrobes, small rooms, cars, suitcases and bags.

Reuse

Economize

Recycle

Buying Greenatural package-free detergent means you can save money and cut down on plastic consumption with lots of benefits. **Benefits for the buyer:** economic savings, less waste to dispose of, you just buy what you need.

Benefits for the environment: 80% less plastic, less pollution, energy savings, lower CO₂ emissions. Our bulk-sale liquid detergents are packaged in 20 kilogram bag-in-boxes, with a specially designed non-drip tap.

This solution allows detergents to be sold package-free with no investment for initial dispensing systems.

The bag-in-boxes are also easy to manage, **occupy very little space** and can be easily positioned on existing shelving, allowing the detergent to be sold package-free cleanly, conveniently and simply.

We also chose this system because **it reduces CO₂ emissions in the atmosphere by over 30%**, calculated on the re-use of plastic containers.

With this system, there is no need to pour the detergent into another container, thus also avoiding bacterial contamination of our natural products.

A specific label is provided for every detergent for sales purposes.

Conditioners

0% EDTA Silicones, Parabens, Derived from Petroleum.

Two new Greenatural conditioners to add shine and vitality to your hair with citrus fruit and with sunflower and shea butter, certified by ICEA (Italian Institute for Ethical and Environmental Certification). These conditioners have been formulated **for all hair types**, to

nourish deep down and tame hair without weighing it down. Greenatural conditioners are available in **three handy formats**:

- **travel-size** so you can take your favourite conditioner with you wherever you go;
- **in a convenient tube** for a quick

shower;

- **in a bell-shaped bottle** to save and dispense the product efficiently.

Dermatologically tested on sensitive skin. Tested for nickel, chrome and cobalt (<0.4 ppm). Perfumed with the addition of essential oils.

Sunscreen creams

The **Greenatural Sun Care** range consists of three sun creams and an after-sun cream, all formulated with **over 98% natural ingredients**. We have exclusively used non-nano physical filters to guarantee maximum **UVA and UVB protection**. Our SPF20/30 sun creams form an ultra-thin white film to allow correct application of the product on the skin, making it less likely to miss out areas which could get

sunburnt. Our SPF20/30 sun creams are water resistant and the texture is pleasant and easy to apply. **The SPF50** sunscreen creams, with high protection for children and people with pale skin, **are perfume-free** and formulated to minimise the risk of allergies. The moisturising **after-sun cream** has been formulated **with organic Aloe vera, organic Argan oil and organic**

shea butter. We have created a fluid, easily absorbed product which provides **instant relief**, a sensation of freshness and hydration for reddened skin.

Skin care range and lip balm sticks

The **Greenatural skin care** range has been formulated with **plant extracts from organic agriculture** and is certified as eco bio cosmetics by ICEA. The products in the range do not contain parabens, phenoxyethanol, alkaline soaps, alcohol, colourants, SLES, SLS and PEG and have been dermatologically tested. They have been checked for nickel, chrome and cobalt content (less than 0.4 ppm) and perfumed only with natural essences. **Greenatural: the pleasure and peace of mind of natural and responsible cosmetics.**

Greenatural lip balm sticks are natural and nourishing, guaranteeing long-lasting moisturisation. **They are made with organic ingredients, whole vegetable oils, shea butter and beeswax.** Apply to your lips whenever you feel the need to protect them from the wind and cold, to leave them smooth, soft, moisturised and super-nourished. Available with SPF 15.

Essential oils

Obtained solely by steam distillation or by pressing, our essential oils are authentic concentrates of nature. **100% pure**, they contain all the goodness, aroma and properties of the plants from which they are extracted. **They have been used to care for the body and spirit** for

centuries and are suitable for a wide variety of uses. When used in room perfume dispensers, they purify the air and boost concentration or instil calm depending on the essence chosen. **Excellent if used in cosmetics**, when diluted in vegetable oils, they are also invaluable ingredients for

wraps, foot baths or a relaxing bath. They can also be used to **perfume your laundry** by adding a few drops to the fabric conditioner drawer in the washing machine.

*A natural candle to
perfume your
special home.*

Why choose our candles?

- 1 They are **better than candles made with beeswax**.
- 2 They **last longer** than candles made with other types of wax.
- 3 They **do not produce soot** which makes the walls and air dirty.

Natural ingredients

With essential oils

Hand crafted

Raw cotton wicks

No heavy metals or dioxins

Little tips for great results

Tip 1: The wick

What should I do? Check to see if two balls have formed on the wick and always **trim it to about 5 mm from the wax** (when the candle is cold) so that your candle will last longer. The balls form if the candle has been burning for long periods.

Tip 4: The fragrance

What should I do? Choose the right size and number of candles based on the size of the room because the fragrance depends on the quantity of wax that melts. **If the rooms are very big, you should use two or three 350 g candles.**

Tip 2: Burning

What should I do? Leave the candle to burn until the entire top layer of the candle melts up to the sides. "Tunnelling" (central hole) occurs if **the candle did not burn for long enough the previous time it was lit.**

Tip 5: Duration

What should I do? Do not leave the candle unattended when burning or leave it lit for too long; we **recommend not burning the candle for more than three hours** to avoid overheating the glass.

Tip 3: The lid

What should I do? Use the lid to **snuff the candle** (instead of blowing it out), thus preventing unpleasant odours from spreading around the room and **prolonging the fragrance** which would otherwise be dispersed.

Vegan and sustainable candles

Let yourself be enveloped by the scent and warmth of Greenatural candles.
Made of pure soy wax with no added chemicals or colourants, they are naturally perfumed with delicate natural essences

and essential oils. The soy wax obtained from the seeds of this plant is a natural, biodegradable and completely renewable ingredient.
Candles made of soy wax have a **lower**

melting point than those made of paraffin wax, so they last longer whilst creating a warm and pleasant atmosphere.

Handmade soap

Greenatural soap is made in Italy using open-air wooden containers at room temperature. The **basic ingredients** are plant based: **coconut oil, olive oil, herbalextracts, organic products and natural essences, without using animal or industrial fats.** The low temperatures maintained in the saponification process guarantee a soft and supple consistency which cleanses even the

most sensitive skin delicately and naturally. Greenatural soap flakes, hand-made after drying, are a natural way of washing all your clothes, even the most delicate (silk, lingerie, lace, etc.) by hand or in the washing machine, both whites and colours. Thanks to the stain-removing power of soap flakes, they can also be used as an additive to boost the cleaning power of detergent when clothes are extra dirty.

We can produce a 100% plant-based soap with your brand, with no parabens, mineral oils or SLES, cruelty free and for everyday use for a minimum investment, meeting the increasing demand for eco-friendly, all-natural quality.

Green & Beauty

Nature for the skin. Natural, organic extracts combined with modern processing techniques have given us contemporary products for daily use, for all our requirements.

For women and men, the entire family and which are also well suited to a younger audience.

Choose the attractive vintage look of the #vintagebeauty range or immerse yourself in the colours and sensuality of the Yes, Please! range for daily pampering.

Body lotion

Seduce your senses with Yes, Please! body lotion. Let the spray refresh your skin while it is still wet after a shower. Gently rub on this combination of cosmetic oils and plant extracts and let yourself **be inebriated by their perfumes!** It does

not matter if your daily routine leaves you little time to take care of yourself. You will be amazed at how easy it is to use Yes, Please! spray lotion: **a light spray, a quick massage and you can enjoy your very own moment of wellbeing.**

Yes, Please! lotions are AIAB certified and packed with organic plant extracts and oils. Just choose your favourite in a choice of two formats, 100 ml and 200 ml.

*Bath or foot salts
for pure relaxation*

Sorbet scrub

Use it in the shower instead of shower gel, massaging it delicately on wet skin.

After the shower, use a soft, warm towel to make the most of its properties and complete your Yes, Please! moment in style!

As well as being a natural detergent, the salt crystals eliminate dead skin cells and leave your skin looking Hollywood gorgeous.

Gently scrub your skin in the shower with your Yes, Please! sorbet scrub. Let the perfume, precious oils and extracts become an elixir for your wellbeing. **The salt crystals on your skin transport you back to the sea**, to the trace elements naturally

present in the white-tipped waves. Let the warm water run slowly with delicious laziness for a final delicate caress. All you need is a soft, warm towel to complete your Yes, Please! moment. Use it in the shower instead of shower gel, massaging it delicately

on wet skin. After the shower, use a soft, warm towel to make the most of its properties and complete your Yes, Please! moment in style.

Deodorants

- With Triethyl Citrate
- Grapefruit seed extract
- Colloidal silver

The new range of Green&Beauty deodorants with **eye-catching graphics and a vintage look**. This is a natural product that is ideal for sensitive, delicate skin and does not inhibit natural perspiration.

Two fragrances for women: **#NaturalCharme** with a delicate floral note, **#NaturalCitrus**: spicy and citrus. For men, we have chosen **#NaturalSpirit** with fresh and alluring notes.

And finally, **#Naturalstyle**, a **unisex fragrance for all the family**.

Cosmetic soaps

Green&Beauty soap is made in Italy using open-air wooden containers at room temperature.
The basic ingredients are plant-based and

no animal or industrial fats are used. This low-temperature saponification process makes the **soap soft and supple**, while the lather produced delicately and

naturally cleanses even the most sensitive skin. Contains herbal extracts.

Makeup brushes & sponges

The Green & Beauty range of professional make-up brushes stems from the need to ensure quality, effectiveness, ease of use and professionalism whilst respecting mankind and nature. The bristles are made

of hypoallergenic synthetic bacteriostatic fibres. The rings on the brushes are made of recycled aluminium and the handles are bamboo, sourced from cultivations with low environmental impact. The study of

their shape has resulted in an exceptional accessory to complement your personal beauty, which also adapts to the requirements of PROFESSIONAL make-up.

Natù menstrual cups

Natù is an **easy-to-insert, reusable menstrual cup**, made of soft **medical-grade platinum silicone** and **100% hypoallergenic**. Once inserted, it adheres perfectly to the vagina walls, collecting the blood flow instead of absorbing it, thus

avoiding leaks and respecting the natural balance of the vaginal area. **Natù is safe, convenient, practical and comfortable**. Natù can be used day and night and allows you to do all sports, even water sports. You no longer have to choose dis-

posable sanitary towels and tampons: Natù is an innovative and ecological alternative which cares for your wellbeing and the environment. Natù loves you and the Earth.

Cloth nappies EasyPU

PANTS that are shaped like a conventional nappy and made of a waterproof outer fabric while a layer of microsuede is sewn on the inside that keeps your baby’s skin dry thanks to a draining effect. There is a pocket between the two layers of fabric in which one or **more ABSORBENT INSERTS can be placed, guaranteeing**

that the nappy is absorbent and leak-proof. To make it even easier and more convenient to use, there are also thin SHEETS that can be placed over the pants to keep the nappy clean at all times. **The nappy is closed using pull tabs.** There are three buttons on the front which allow you to adjust the size to your child’s

growth: it can be used for a child weighing from between about 3.5 and 16 kg. **NB:** EasyPu is available in lots of colours and every nappy comes with two absorbent inserts.
